Technical Skills

Frontend Development: React.js, TypeScript, JavaScript, HTML5, CSS3, Redux, TailwindCSS, ShadCN UI, TanStack Query

Backend Development: Node.js, Express.js, REST APIs, Prisma ORM

Database Technologies: MongoDB, PostgreSQL

Development Tools: Git, GitHub, Chrome DevTools, Postman, NPM

Frameworks & Libraries: React Router, Svelte, Redux Toolkit

Experience

Health Pulse Connect

May 2024 – June 2024

Web Developer Intern

Vadodara, Gujarat

- Built web applications using React.js and Redux, orchestrating state management solutions that enhanced application performance by 30%.
- Integrated RESTful APIs and third-party services to optimize application functionality and streamline data flow.
- Crafted responsive UI components using modern React patterns and performance optimization techniques.
- Partnered with healthcare professionals to design features for community health initiatives, prioritizing scalability and accessibility.

CustomStores.in

Feb 2024 – Apr 2024

Freelance Web Developer

Remote

- Designed and launched a full-stack e-commerce platform using MongoDB, Express.js, React.js, and Node.js (MERN stack).
- Established secure payment gateway integration and JWT-based user authentication system.
- Created responsive UI/UX using TailwindCSS and modern CSS practices, ensuring cross-browser compatibility.
- Boosted customer engagement by 20% through performance optimization and enhanced user experience features.

Projects

TaskMaster | React, TypeScript, TailwindCSS, ShadCN UI, TanStack Query | [Live Demo](#)

December 2024

- Constructed a high-performance task management application utilizing React and TypeScript for enhanced code reliability.
- Established real-time data synchronization using TanStack Query, resulting in improved data fetching and caching.
- Generated reusable UI components with ShadCN UI and TailwindCSS for consistent design patterns.
- Streamlined application performance through efficient state management and lazy loading techniques.

FollowFlow | WXT, React, Chrome Extension | [GitHub](#)

June 2024

- Created a Chrome extension using React and WXT, executing DOM manipulation for social media automation.
- Designed efficient state management system for handling large-scale user interactions.
- Incorporated performance optimization techniques ensuring smooth functionality with high user loads.
- Formulated user-friendly interface using React components and modern CSS practices.

Shortify-Hub | React.js, Express.js, MongoDB, TailwindCSS | [Live Demo](#)

March 2024

- Engineered a full-stack URL shortening service using the MERN stack with focus on scalability.
- Built RESTful APIs using Express.js and Node.js for efficient URL management and analytics.
- Structured and optimized MongoDB schema for efficient data storage and retrieval operations.

Education

Parul University

August 2021 – Present

Bachelor of Technology, Computer Science and Engineering — CGPA: 7.84

Vadodara, Gujarat

Vatsalya Vidyalaya

2020 – 2021

Higher Secondary — Percentage: 82.3%

Rajpipla, Gujarat
